MISSION

The mission of this scheme, in the light of the present ongoing advance educational competency, is to develop the interest of study and to preach basic principles of moral education to the students coming from the rural families. In the half-starved and educationally as well as socially poor families, there is hardly any atmosphere, where the students can seek any guidance from their parents about. Young students need counseling, proper guidance, choice of subjects to be offered at the under graduate level. In order to achieve these objectives, the teachers of the college adopt the students during academic session and guide them, help them and finally try to make them good citizens of the country. Teachers as a guardian review their adopted students' study, inspect their home assignments and attendance in the classes as well as attendance in the evaluation tests organized by the college. In addition to that, they teach them the lessons of moral education.

- Teacher guardian acts as a mentor to students and offers them emotional and academic support along with motivation.
- The teachers of the institution take up the responsibility of safeguarding and nurturing the newly admitted students.
- The teachers act as a buffer for the first year students and help them to get acclimatized to environment.
- This scheme, which is perhaps the only one of its kind, guarantees additional assurance to the new comers and takes some burden off the parents and lessens their anxiety.
